Point 3

Campus life in Sapporo

Live in the YoshidaGakuen Student Housing on Kanjo-dori higahi.

Interview with the students!

It has only been a few months since I arrived in Japan, but I am enjoying student life here. Sapporo is a beautiful city with clean and delicious air and water. The cost of things is cheap. My room in the dorm is not very big but it is comfortable and has all the necessities such as a kitchen, toilet, bathroom and closets. the meals are very healthy and delicious. Sometimes they even serve Korean food, which is where I am from. Because of this I have not been homesick. Shopping is enjoyable because there is a subway and supermarket nearby. The House mother and father are very kind and take care of me. I have made lots of friends here at the dorm, and I am really enjoying life here!!

Sohn Yoo Jin (Canada)

My study abroad experience began in Sapporo. Of course when I first arrived I was nervous about living alone in a foreign country. Now I am used to life in Sapporo. I recommend the student housing I am living in because you have privacy in your own room, and can concentrate on studying, and enjoy a relaxed lifestyle. There is a bath, toilet and mini kitchen in my room so I can live and go to school in a safe and convenient environment. The meals that are provided by the house mother in the morning and in the evening are made with much care and are very delicious. Getting to school or going downtown Sapporo doesn't take time and is convenient. Recently I am hooked on going to the Yakitori shop across from the dorm and eating barbecued chicken with my friends and having a great time.
